

► Project: INSHIP

Integrating National Research Agendas on Solar Heat for Industrial Processes

28 partners; EUR 2,498,661.25

INSHIP aims at the definition of a ECRIA engaging major European research institutes with recognized activities on SHIP, into an integrated structure that could successfully achieve the coordination objectives of: more effective and intense cooperation between EU research institutions; alignment of different SHIP related national research and funding programs, avoiding overlaps and duplications and identifying gaps; etc.

Contact@EERA: **Elena Dufour**

EERA's role:

- EERA IP repository maintenance
- Adaptation of the SHIP structure to the JP CSP
- Infrastructure Mobility Scheme
- National funding contribution recollection
- Dissemination and exploitation plan and knowledge transfer to industry
